EDUCATION

Junior Year of   Kookmin University, Seoul, South Korea

School of Computer Science

February 2021

GPA : 3.88 / 4.5, Major GPA : 4.4 / 4.5

EXPERIENCE

Kookmin University.

Undergraduate Student   2014 Mar.- Present

I've finished more than 3 projects related to Java, Python and Javascript

Project 1 (Scrabble board game project : https://bit.ly/2oUziPN)

December 2018

This 2-men team project aims at implementing a GUI *Scrabble* game using Python and its PyQt library, the game can only be played locally. In this team project, I was in charge of creating UI and implementing the main game logic of the board game 'Scrabble'.

Project 2 (Hanabi board game project : https://bit.ly/34AHmob)

July 2019

This individual project aims at implementing a GUI *Hanabi* board game using Java and the JavaFX library. The game is a multiplayer game but it can't be played through network, only local multiplayer is supported.

Project 3 (My travel diary project : https://bit.ly/36bunKQ)

November 2019

This individual project aims at making a travel schedule diary managing website using Node.js and MySQL. I implemented both frontend and backend, including the database design.
